

## DBNZ Tech Tip of The Week

### PRIMERS

Valspar Refinish offers a range of versatile primers for shops seeking functional, simple and practical priming solutions. As the foundation to the entire refinish system, our primers are designed to offer outstanding adhesion and protection. The primer range consists of

multiple binder technologies including polyurethane, epoxy, acrylic and etc.

### Looking for an easy to use no nonsense DTM primer??

**DTM2004 (grey) & 2001 (white)** primer are formulated with hybrid epoxy and acrylic polymers, providing excellent adhesion, good corrosion resistance, with productive dry times, and a real ease of sanding.

**DTM 2004 & 2001 are Isocyanate Free.**

#### Suitable Substrates
